

OVIGO PRODUCT REQUIREMENTS DOCUMENT

Local Expert, Host and Stay Booking Platform

Document Version: 1.0

Product: Ovigo

Prepared for: Product, UX/UI, Engineering, Operations and Business Teams

Primary Platforms: Customer Web, Customer App, Partner App and Super Admin Dashboard

1. PRODUCT OVERVIEW

Ovigo will operate as a location-based tourism marketplace where travelers can:

- Discover verified Local Experts, Hosts and Guides.
- Book fixed-date tours and local experiences.
- Request customized tours and receive bids from eligible Local Experts.
- Search and book hotels, resorts, homestays, guesthouses and other stays.
- Add transportation, food, activities and local services to a booking.
- Communicate with service providers through live chat.
- Review only services they have actually booked and completed.

Partners will be able to register under one or more approved roles:

1. Local Expert
2. Host
3. Guide
4. Hotel or Resort
5. Rent-a-Car Operator

One partner account may hold multiple roles, but every role must be separately approved and must display only the relevant dashboard features.

Ovigo will earn revenue through:

- Booking commissions.
- Tour and experience sales commissions.

- Stay booking commissions.
 - Transport and service commissions.
 - Referral or network commissions.
 - Featured listing fees.
 - Sponsored search placement.
 - Advertising campaigns.
 - Optional subscription or premium partner plans.
-

2. PRODUCT VISION

Ovigo should become a local tourism commerce platform where destination knowledge, local service supply and travel bookings are connected through structured location tagging.

The platform must allow a traveler to move naturally from:

Destination discovery → Local Expert → Tour or stay selection → Booking → Payment → Service completion → Verified review

The product is not simply a hotel-booking system decorated with scenic photographs. It must connect the people who know a destination with the businesses and services operating there.

3. PRODUCT OBJECTIVES

The product must:

- Help Local Experts monetize destination knowledge.
 - Help local Hosts and businesses receive direct bookings.
 - Allow travelers to build complete destination-based trips.
 - Improve booking trust through verification, security badges and verified reviews.
 - Support fixed tours and customized travel requests.
 - Create a structured referral network between Experts, Hosts, Guides and transport operators.
 - Allow partners to advertise their services in search and featured areas.
 - Give Ovigo full control over commissions, payouts, disputes, certifications and moderation.
-

4. PRODUCT SCOPE

4.1 Included in Scope

- Local Expert registration and verification.
- Host, Guide, Hotel and Rent-a-Car registration.
- Multi-role partner accounts.
- Local Expert public profiles.
- Host and Guide public profiles.
- Fixed-calendar tour listings.
- Local experiences and activity listings.
- Customized tour request and bidding.
- Stay listing and booking.
- Room, unit and inventory management.
- Availability calendars.
- Transportation profiles.
- Food menu and meal package management.
- Activity and add-on management.
- Location tagging.
- Live chat.
- Verified reviews.
- Security badges and certifications.
- Partner-created businesses and services.
- Referral and network commission.
- Direct sales commission.
- Advertising and boosted listings.
- Booking, payments, escrow and payouts.
- Super Admin management.
- Partner App dashboards.
- Analytics and financial reporting.

4.2 Excluded from This Scope

- Outbound international packages.
- Visa processing.
- Airline ticketing.
- Travel agency CRM.
- International agency collaboration.
- Contributor content earning.
- General travel-blog publishing.
- Full local-product e-commerce fulfillment.

Local branded products may be attached to tours, stays or destination services. A complete nationwide retail marketplace should remain a separate module because apparently one platform cannot solve every commercial problem before breakfast.

5. USER AND PARTNER ROLES

5.1 Traveler

A traveler can:

- Create an account.
- Search destinations, Experts, tours and stays.
- Submit customized tour requests.
- Compare Local Expert bids.
- Book tours, experiences, stays and add-ons.
- Pay online.
- Chat with partners.
- Manage travelers and guest information.
- Cancel according to policy.
- Raise disputes.
- Review completed services.

5.2 Local Expert

A Local Expert is a verified destination specialist who can:

- Create fixed-date tours.
- Create local experiences.
- Bid on customized tour requests.
- Bundle stays, transportation, meals, activities and Guides.
- Add businesses or services to Ovigo.
- Add and supervise Guides.
- Earn directly from tours and services.
- Earn referral commission from approved businesses added through the Expert's network.
- Promote listings through advertisements.

5.3 Host

A Host is an individual who owns, manages or legally represents a stay property.

A Host can:

- Create property listings.
- Add rooms or rentable units.
- Manage availability and prices.
- Receive and manage reservations.
- Chat with travelers.
- Add property policies and certifications.
- Offer meals, pickup, activities and other add-ons.
- Receive payouts after booking completion.

5.4 Hotel or Resort

A Hotel or Resort is an organization-level stay operator.

It uses the same booking engine as a Host but receives additional business features:

- Multiple staff accounts.
- Multiple properties.
- Multiple room types.
- Bulk inventory management.
- Rate plans.
- Tax and service-charge configuration.
- Corporate reports.
- Front-desk booking management.

On the traveler-facing product, the responsible owner or representative will still be displayed under the general label **Host**.

5.5 Guide

A Guide may be:

- Independently registered.
- Added by a Local Expert.
- Attached to a specific tour.
- Supervised by a Local Expert.
- Approved directly by Ovigo.

A Guide can:

- Maintain availability.

- Accept or reject assignments.
- View assigned travelers and itinerary.
- Check in at service start.
- Complete assigned tours.
- Receive earnings.
- Receive verified Guide reviews.

5.6 Rent-a-Car Operator

A Rent-a-Car partner can:

- Add vehicles.
- Set driver and self-drive availability.
- Define service areas.
- Set hourly, daily, route-based and airport-transfer pricing.
- Accept standalone or tour-linked bookings.
- Assign drivers and vehicles.
- Manage booking status and payouts.

5.7 Super Admin

The Super Admin controls:

- Users and partners.
 - Roles and permissions.
 - Verification.
 - Listings.
 - Locations.
 - Bookings.
 - Payments.
 - Commissions.
 - Payouts.
 - Reviews.
 - Disputes.
 - Certifications.
 - Advertisements.
 - Fraud and risk.
 - System settings.
 - Reporting.
-

6. PARTNER ACCOUNT AND ROLE-SELECTION SYSTEM

6.1 Initial Role Selection

During Partner App registration, the partner must select one or more roles:

- Local Expert
- Host
- Guide
- Hotel or Resort
- Rent-a-Car

The registration form must dynamically change according to the selected role.

6.2 Multi-Role Account

A partner may later apply for an additional role.

Example:

- A Local Expert may also operate a homestay.
- A Host may also be a Local Expert.
- A Guide may later become an approved Local Expert.
- A Hotel may also operate vehicles.

Each role must maintain:

- Separate approval status.
- Separate verification documents.
- Separate profile information.
- Separate dashboard modules.
- Separate financial reporting.

6.3 Role Statues

- Draft
- Submitted
- Under Review
- Additional Information Required
- Approved

- Temporarily Suspended
- Rejected
- Permanently Banned

6.4 Role Switching

The Partner App must contain a role switcher.

Example:

Current Role: Local Expert

Switch to:

- Host Dashboard
- Guide Dashboard
- Rent-a-Car Dashboard

Only approved roles may be activated.

7. PARTNER VERIFICATION AND ONBOARDING

7.1 Common Verification Requirements

All partners must provide:

- Full legal name.
- Profile photograph.
- Mobile number.
- Email address.
- National identity document or passport.
- Permanent address.
- Current address.
- Emergency contact.
- Bank or mobile financial service account.
- Tax identification information where required.
- Consent to Ovigo's partner agreement.
- Consent to background and document verification.

7.2 Local Expert Verification

A Local Expert must additionally provide:

- Primary destination or service area.
- Secondary destinations.
- Years of local experience.
- Languages spoken.
- Tourism, hospitality or safety training.
- Local references.
- Portfolio or previous-tour evidence.
- Expertise categories.
- Emergency-handling capability.
- Bank details.
- Optional police verification.
- Optional first-aid certification.

7.3 Host and Property Verification

A Host must provide:

- Proof of ownership, lease or management authority.
- Property address.
- Utility bill or address verification.
- Trade licence where applicable.
- Fire and safety information.
- Property photographs.
- Bank account.
- Cancellation-policy agreement.
- Guest registration compliance declaration.

7.4 Guide Verification

A Guide must provide:

- Identity documents.
- Address.
- Languages.
- Service locations.
- Expertise.
- Experience.
- Local Expert supervisor, where applicable.
- Emergency contact.

- Optional tourism, first-aid or trekking certification.

7.5 Rent-a-Car Verification

The operator must provide:

- Trade licence.
 - Vehicle registration.
 - Fitness certificate.
 - Insurance.
 - Driver licences.
 - Driver identity documents.
 - Service area.
 - Emergency support number.
-

8. PUBLIC PROFILE SYSTEM

8.1 Profile Types

The public system must support three primary personal profile labels:

1. Local Expert
2. Host
3. Guide

Hotel, Resort and Rent-a-Car pages will be displayed as business profiles linked to responsible Host or operator profiles.

8.2 Local Expert Public Profile

The profile must show:

- Profile photograph.
- Full or public display name.
- Verified badge.
- Security-verification status.
- Primary destination.
- Expertise.
- Languages.

- Biography.
- Years of experience.
- Successful-tour count.
- Completed-booking count.
- Overall rating.
- Rating breakdown.
- Response rate.
- Average response time.
- Tour-completion rate.
- Cancellation rate.
- Available tours.
- Upcoming fixed tours.
- Experiences.
- Associated properties.
- Associated Guides.
- Associated transport services.
- Verified certifications.
- Traveler reviews.
- Live-chat button.
- Custom-tour request button.
- Report-profile button.

8.3 Host Public Profile

The Host profile must show:

- Host photograph or business representative.
- Verified Host badge.
- Hosting start date.
- Number of properties.
- Successful-stay count.
- Response rate.
- Response time.
- Rating.
- Property certifications.
- Guest reviews.
- Cancellation history indicator.
- Languages.
- Property portfolio.
- Live-chat button.
- Report-profile button.

8.4 Guide Public Profile

The Guide profile must show:

- Photograph.
- Verification badge.
- Supervisor or associated Local Expert.
- Service locations.
- Languages.
- Expertise.
- Total completed assignments.
- Rating.
- Certifications.
- Availability summary.
- Verified traveler reviews.

8.5 Review Eligibility

Only a traveler attached to a completed booking may submit a review.

The system must prevent:

- Reviews before completion.
- Multiple reviews for the same booked service.
- Reviews by partners reviewing themselves.
- Reviews from cancelled bookings.
- Reviews from unrelated users.

A booking containing multiple services may allow separate reviews for:

- Local Expert.
- Host or stay.
- Guide.
- Transportation.
- Overall trip.

9. LOCATION TAGGING SYSTEM

Every listing must be connected to Ovigo's location hierarchy.

9.1 Location Hierarchy

- Country
- Division
- District
- Upazila
- City or municipality
- Destination
- Specific attraction or meeting point

9.2 Required Location Tagging

The following must use location tags:

- Local Expert profiles.
- Tours.
- Experiences.
- Properties.
- Rooms or units.
- Activities.
- Transportation services.
- Pickup points.
- Drop-off points.
- Custom tour requests.
- Advertisements.
- Local products and services.

9.3 Search Matching

The system must use location tags to match travelers with:

- Experts serving the destination.
- Tours covering the destination.
- Stays near the destination.
- Guides available in the destination.
- Vehicles serving the route.
- Sponsored listings for that location.

9.4 Publishing Restriction

A tour, property, experience or service cannot be published without valid location tagging.

10. LOCAL EXPERT TOUR LISTING SYSTEM

10.1 Supported Tour Types

A Local Expert may create:

- Fixed Departure Tour.
- Private Tour.
- Group Tour.
- Ground Tour.
- Day Tour.
- Multi-Day Tour.
- Local Experience.
- Family Tour.
- Couple Tour.
- Adventure Tour.
- Food Tour.
- Photography Tour.
- Cultural Tour.
- Corporate or Team Tour.

10.2 Fixed-Calendar Requirement

A fixed tour must include:

- Departure date.
- Return date.
- Booking deadline.
- Minimum participants.
- Maximum participants.
- Remaining seats.
- Confirmation threshold.
- Tour status.
- Departure time.
- Return time.
- Recurrence option where applicable.

10.3 Mandatory Tour Fields

A Local Expert must provide the following before publication:

Basic Information

- Tour title.
- Short summary.
- Detailed description.
- Cover image.
- Gallery.
- Tour category.
- Tour type.
- Primary destination.
- Covered locations.
- Duration.
- Number of days and nights.
- Minimum and maximum group size.
- Suitable traveler type.

Stay Information

- Stay name.
- Property type.
- Room type.
- Number of nights.
- Occupancy arrangement.
- Room-sharing policy.
- Check-in and check-out information.
- Stay photographs.
- Stay location.
- Stay certification or trust badges.
- Whether the stay is owned, referred or externally sourced.

Transportation Profile

- Transport provider.
- Vehicle type.
- Vehicle model or category.
- Air-conditioning status.
- Seating capacity.
- Driver included or excluded.
- Intercity transport details.
- Local transport details.
- Pickup location.
- Pickup time.
- Drop-off location.
- Drop-off time.

- Route information.
- Luggage policy.
- Transportation photographs.
- Vehicle safety documents where applicable.

Covered Locations

For every covered location, the Expert must provide:

- Location tag.
- Planned visit date.
- Planned arrival time.
- Planned departure time.
- Activity at the location.
- Entry fee inclusion status.
- Accessibility notes.
- Safety notes.

Food Menu

- Number of included meals.
- Breakfast menu.
- Lunch menu.
- Dinner menu.
- Snacks and drinks.
- Vegetarian options.
- Vegan options.
- Halal confirmation where applicable.
- Allergy information.
- Children's meal availability.
- Optional meal upgrades.
- Food provider or restaurant name where available.

Activities

- Activity name.
- Activity description.
- Location.
- Duration.
- Included or paid add-on.
- Minimum age.
- Physical difficulty.
- Equipment required.
- Safety requirement.

- Capacity.
- Guide requirement.
- Weather dependency.

Security and Safety

- Emergency contact.
- Responsible Local Expert.
- Assigned Guide.
- Nearest hospital or clinic.
- First-aid availability.
- Women-traveler safety arrangements.
- Child-safety arrangements.
- Night-travel policy.
- Weather-related risk.
- Activity risk level.
- Local authority or permit requirements.
- Insurance inclusion or exclusion.
- Emergency cancellation procedure.

Pickup and Drop-Off

- Exact pickup location.
- Map pin.
- Pickup window.
- Contact person.
- Drop-off location.
- Estimated arrival time.
- Optional home or hotel pickup.
- Extra pickup charge.
- Late-arrival policy.

Pricing

- Price per person.
- Price per group.
- Adult price.
- Child price.
- Infant policy.
- Single-room supplement.
- Couple price where applicable.
- Seasonal pricing.
- Weekend pricing.
- Early-bird discount.

- Group discount.
- Tax.
- Service charge.
- Booking deposit.
- Full-payment deadline.
- Currency.

Included Services

- Stay.
- Transportation.
- Meals.
- Guide.
- Entry tickets.
- Activities.
- Safety equipment.
- Photography.
- Drinking water.
- Airport or station transfer.
- Other services.

Excluded Services

The Expert must explicitly identify every major excluded service.

Add-Ons

Possible add-ons include:

- Room upgrade.
- Private vehicle.
- Additional meal.
- Photography.
- Drone footage.
- Extra activity.
- Airport pickup.
- Personal Guide.
- Travel insurance.
- Local product bundle.
- Early check-in.
- Late check-out.

Policies

- Cancellation policy.
- Refund policy.
- Rescheduling policy.
- Minimum-participant policy.
- Bad-weather policy.
- No-show policy.
- Child policy.
- Pet policy.
- Accessibility policy.
- Traveler conduct policy.

10.4 Tour Publishing Workflow

- Draft.
- Submitted for Review.
- Changes Requested.
- Approved.
- Scheduled.
- Booking Open.
- Almost Full.
- Sold Out.
- Confirmed.
- In Progress.
- Completed.
- Cancelled.
- Suspended.
- Archived.

10.5 Tour Approval

Ovigo may configure:

- Automatic approval for trusted Experts.
- Manual approval for new Experts.
- Mandatory moderation for high-risk activities.
- Reapproval after material price, itinerary or safety changes.

11. CUSTOMIZED TOUR REQUEST AND BIDDING SYSTEM

11.1 Traveler Request Form

The traveler must provide:

- Destination or destinations.
- Locations to cover.
- Travel dates.
- Flexible-date option.
- Number of adults.
- Number of children.
- Number of infants.
- Budget range.
- Preferred stay type.
- Room requirement.
- Transportation requirement.
- Starting location.
- Pickup preference.
- Food preference.
- Activities.
- Accessibility requirement.
- Safety or privacy preference.
- Guide requirement.
- Special occasion.
- Additional notes.
- Bid submission deadline.

11.2 Expert Eligibility

A Local Expert may bid only when:

- The Expert is approved.
- The Expert serves at least one requested destination.
- The Expert is not suspended.
- The Expert meets minimum performance requirements.
- The Expert has not exceeded bid limits.
- The requested date is not blocked.

11.3 Bid Submission Requirements

A bid must include:

- Proposed itinerary.
- Covered locations.

- Stay name or proposed stay category.
- Transport profile.
- Food plan.
- Activities.
- Assigned Guide.
- Pickup and drop-off.
- Security plan.
- Included services.
- Excluded services.
- Add-ons.
- Price breakdown.
- Taxes and fees.
- Deposit amount.
- Cancellation terms.
- Bid-validity period.
- Expert message.

11.4 Bid Statuses

- Draft.
- Submitted.
- Viewed.
- Traveler Question Received.
- Revised.
- Shortlisted.
- Accepted.
- Rejected.
- Withdrawn.
- Expired.
- Converted to Booking.

11.5 Bid Comparison

Travelers must be able to compare bids by:

- Total price.
- Expert rating.
- Successful tours.
- Stay quality.
- Transport type.
- Included meals.
- Activities.
- Cancellation terms.

- Response time.
- Verified badges.

11.6 Bidding Controls

The Super Admin must be able to configure:

- Maximum bids per request.
- Maximum bids per Expert per day.
- Minimum Expert rating.
- Bid service fee.
- Lead charge.
- Bid expiration.
- Auto-closing rules.
- Penalty for misleading bids.
- Cancellation penalty after bid acceptance.

11.7 Conversion to Booking

Once a bid is accepted:

1. The bid is locked.
 2. Inventory is revalidated.
 3. A booking is created.
 4. Payment is initiated.
 5. Unsuccessful Experts are notified.
 6. The accepted itinerary becomes the booking contract.
 7. Material changes require traveler approval.
-

12. EXPERT BUSINESS AND SERVICE NETWORK

12.1 Adding Businesses

A Local Expert may add:

- Hotel.
- Resort.

- Homestay.
- Guesthouse.
- Restaurant.
- Local transport provider.
- Rent-a-Car operator.
- Activity provider.
- Photographer.
- Local product brand.
- Equipment-rental provider.
- Event or cultural service.

12.2 Business Ownership Types

When adding a business, the Expert must declare:

- Owned by Expert.
- Managed by Expert.
- Referred by Expert.
- Partner business.
- Unverified recommendation.

12.3 Business Approval

No business may receive bookings until:

- The responsible owner accepts the invitation.
- Required documents are submitted.
- Ovigo approves the business.
- Commission terms are accepted.

12.4 Expert Earnings

The Expert may earn through:

Direct Sale Earnings

Paid when the Expert sells an Expert-owned tour, activity or service.

Referral Commission

Paid when a traveler books an approved business originally added or referred by that Expert.

Network Commission

Paid when the Expert's associated Guide, property or transport partner completes an eligible booking.

Tour-Curation Commission

Paid when the Expert bundles third-party services into a tour.

12.5 Attribution Rules

The system must record:

- Who added the business.
- Who owns the business.
- Who sold the service.
- Which booking generated revenue.
- Which commission rule applied.
- Commission start and expiry date.
- Whether the customer was acquired organically, through an Expert or through advertising.

Ovigo must prevent:

- Self-referral manipulation.
 - Duplicate business claims.
 - Fake ownership.
 - Circular commission arrangements.
 - Commission after an agreement expires.
-

13. GUIDE SUPERVISION SYSTEM

13.1 Adding a Guide

A Local Expert may:

- Invite an existing Guide.
- Register a new Guide.
- Assign a Guide to one or more destinations.
- Upload Guide documents.
- Define the relationship.
- Set internal earning or revenue-share terms.

13.2 Supervision Relationship

The system must store:

- Supervising Expert.
- Guide.
- Start date.
- End date.
- Assigned locations.
- Commission agreement.
- Approval status.
- Disciplinary status.

13.3 Assignment Workflow

- Expert proposes assignment.
- Guide accepts assignment.
- Guide receives itinerary.
- Guide checks in.
- Traveler or Expert confirms service start.
- Guide completes assignment.
- Service completion is verified.
- Earnings become eligible for payout.

13.4 Guide Independence

A supervised Guide may:

- Work with multiple Experts if contracts permit.
 - Apply to become an independent Guide.
 - Apply to become a Local Expert.
 - Decline assignments.
 - Report an Expert to Ovigo.
-

14. STAY LISTING SYSTEM

14.1 Supported Property Types

- Hotel.

- Resort.
- Homestay.
- Guesthouse.
- Apartment.
- Villa.
- Cottage.
- Eco-lodge.
- Hostel.
- Campsite.
- Houseboat.
- Farm stay.
- Boutique property.

14.2 Property-Level Information

A Host must provide:

- Property name.
- Property type.
- Host profile.
- Full address.
- Location tags.
- Map coordinates.
- Property description.
- Cover image.
- Gallery.
- Video.
- Check-in time.
- Check-out time.
- Reception availability.
- Contact information.
- House rules.
- Cancellation policy.
- Refund policy.
- Child policy.
- Pet policy.
- Smoking policy.
- Alcohol policy.
- Visitor policy.
- Couple policy.
- Bachelor policy.
- Family policy.
- Privacy policy.
- Accessibility information.

- Security information.
- Nearby attractions.
- Transport accessibility.
- Parking details.
- Emergency contact.

14.3 Room or Unit Information

Each room or unit must include:

- Room name.
- Room type.
- Unit count.
- Bed type.
- Bed count.
- Maximum adults.
- Maximum children.
- Room size.
- Private or shared bathroom.
- Air-conditioning.
- Balcony.
- View.
- Kitchen.
- Wi-Fi.
- Workspace.
- Television.
- Toiletries.
- Accessibility.
- Smoking status.
- Room gallery.
- Base rate.
- Weekend rate.
- Seasonal rate.
- Extra-person charge.
- Child charge.
- Tax.
- Service charge.
- Meal plan.
- Refundable or non-refundable rate.
- Minimum stay.
- Maximum stay.

14.4 Amenities

The system must support searchable amenities such as:

- Wi-Fi.
- Air-conditioning.
- Generator or backup power.
- Parking.
- Restaurant.
- Breakfast.
- Swimming pool.
- Gym.
- Spa.
- Lift.
- Wheelchair access.
- Family room.
- Children's play area.
- Security camera.
- Security guard.
- Fire extinguisher.
- First-aid kit.
- Front desk.
- Room service.
- Laundry.
- Kitchen.
- Pet-friendly area.
- Airport transfer.
- Vehicle rental.
- Tour desk.

14.5 Host Certifications and Trust Badges

Ovigo must support configurable badges including:

- Identity Verified.
- Property Verified.
- Security Verified.
- Couple Friendly.
- Privacy Protected.
- Family Only.
- Family Friendly.
- Bachelor Friendly.
- Women Traveler Friendly.
- Accessible Property.
- Child Friendly.
- Pet Friendly.

- Eco-Friendly.
- Fire Safety Checked.
- CCTV Protected.
- 24-Hour Security.
- Highly Rated Host.
- Fast Response Host.

14.6 Badge Approval

Badges may be:

- Self-declared.
- Document verified.
- Inspection verified.
- Performance generated.
- Temporarily granted.
- Revoked.

Badges requiring evidence must not appear publicly before approval.

14.7 Couple-Friendly and Privacy Badges

For sensitive trust badges, Ovigo must clearly define what is verified.

For example, “Couple Friendly” may indicate that the property accepts adult couples under its documented guest policy. It must not imply exemption from applicable law or identity requirements.

“Privacy Protected” may indicate:

- Restricted staff access.
- Secure guest-information handling.
- No unauthorized camera placement.
- Private entrance or room access.
- Documented privacy procedures.

Marketing poetry must not be allowed to wander beyond what the platform has actually verified.

15. STAY AVAILABILITY AND INVENTORY

15.1 Calendar

Hosts must manage:

- Open dates.
- Closed dates.
- Available units.
- Minimum stay.
- Maximum stay.
- Check-in restrictions.
- Check-out restrictions.
- Seasonal prices.
- Weekend prices.
- Special-event prices.
- Stop-sell dates.
- Maintenance blocks.

15.2 Inventory Modes

The platform must support:

- Per-room inventory.
- Per-room-type inventory.
- Entire-property inventory.
- Manual confirmation.
- Instant booking.
- Request-to-book.

15.3 Inventory Lock

When checkout begins, inventory may be temporarily locked.

The Super Admin must configure:

- Lock duration.
- Payment timeout.
- Automatic release.
- Overbooking tolerance.
- Manual override.

15.4 External Calendar Sync

A future release should support:

- iCal import.
 - iCal export.
 - Channel-manager integration.
 - Property-management-system integration.
-

16. STAY SEARCH AND DISCOVERY

Travelers must be able to search by:

- Destination.
- Property name.
- Check-in date.
- Check-out date.
- Guests.
- Rooms.
- Price range.
- Property type.
- Rating.
- Trust badge.
- Amenities.
- Meal plan.
- Instant booking.
- Refundable booking.
- Distance from attraction.
- Couple friendly.
- Family friendly.
- Bachelor friendly.
- Privacy protected.
- Accessibility.
- Parking.
- Pool.
- Pet policy.

16.1 Search Ranking

Organic ranking should consider:

- Location relevance.
- Availability.
- Rating.
- Review count.

- Booking conversion.
- Cancellation rate.
- Host response rate.
- Price competitiveness.
- Listing completeness.
- Trust certification.
- Advertising boost.

Sponsored listings must be clearly marked.

17. STAY BOOKING FLOW

17.1 Traveler Flow

1. Select destination and dates.
2. Select property.
3. Select room or unit.
4. Select guest count.
5. Select meal plan.
6. Add extras.
7. Review house rules.
8. Enter guest information.
9. Apply coupon or wallet credit.
10. Confirm price.
11. Pay.
12. Receive booking confirmation and QR code.
13. Chat with Host.
14. Check in.
15. Check out.
16. Review the stay.

17.2 Booking Statuses

- Draft.
- Awaiting Host Approval.
- Pending Payment.
- Payment Processing.
- Confirmed.
- Check-In Available.
- Checked In.

- In Stay.
- Checked Out.
- Completed.
- Cancellation Requested.
- Cancelled.
- No Show.
- Disputed.
- Refunded.
- Partially Refunded.

17.3 Guest Information

The booking must support:

- Primary guest.
- Additional adult guests.
- Child guests.
- Nationality.
- Identity-document requirement.
- Special requests.
- Arrival time.
- Pickup requirement.
- Accessibility requirements.

Sensitive guest data must not be publicly visible to partners beyond what is needed to deliver the booking.

17.4 Check-In Verification

The system may support:

- QR-code scanning.
 - Booking PIN.
 - Host confirmation.
 - Geolocation-assisted check-in.
 - Identity verification.
 - Manual admin override.
-

18. TRANSPORTATION AND RENT-A-CAR MODULE

18.1 Vehicle Profile

Required fields:

- Vehicle type.
- Brand.
- Model.
- Manufacturing year.
- Registration number.
- Seating capacity.
- Luggage capacity.
- Air-conditioning.
- Driver included.
- Fuel policy.
- Service locations.
- Vehicle gallery.
- Safety documents.
- Insurance information.
- Fitness expiry.
- Available dates.

18.2 Pricing Models

- Per hour.
- Per day.
- Per kilometre.
- Fixed route.
- Airport transfer.
- Station transfer.
- Tour package rate.
- Overtime rate.
- Driver allowance.
- Night charge.
- Fuel included or excluded.

18.3 Transport Booking

Transport may be:

- Booked independently.
 - Added to a stay.
 - Added to a tour.
 - Included in an Expert bid.
 - Assigned by a Local Expert.
-

19. LIVE CHAT AND COMMUNICATION

19.1 Chat Types

- Traveler to Local Expert.
- Traveler to Host.
- Traveler to Guide.
- Traveler to Rent-a-Car operator.
- Expert to Guide.
- Expert to Host.
- Expert to service partner.
- Partner to Ovigo Support.

19.2 Pre-Booking Chat

Before booking, the system may:

- Hide personal phone numbers.
- Block external payment requests.
- Detecting suspicious links.
- Show automated safety warnings.
- Maintain an auditable conversation log.

19.3 Post-Booking Chat

After confirmed booking, chat may support:

- Attachments.
- Location sharing.
- Booking details.
- Pickup coordination.

- Emergency contact.
- Automated reminders.
- Translation support in a future phase.

19.4 Chat Moderation

Super Admin must be able to:

- Access chats only under an authorized support, safety or dispute workflow.
 - Review flagged messages.
 - Block abusive users.
 - Detecting payment diversion.
 - Preserve evidence for disputes.
-

20. BOOKING AND ORDER SYSTEM

20.1 Supported Booking Items

- Fixed tour.
- Custom tour.
- Experience.
- Stay.
- Room.
- Guide.
- Vehicle.
- Activity.
- Meal package.
- Add-on.
- Local product attached to a travel order.

20.2 Unified Booking

A single booking may contain multiple services.

Example:

- Stay for two nights.
- Local Expert tour.
- Rent-a-Car service.

- Guide.
- Dinner package.
- Photography add-on.

20.3 Service-Level Status

Each component must have its own status.

A transport cancellation must not automatically mark the stay as cancelled unless the traveler or Admin cancels the complete order.

20.4 Booking Record

The system must store:

- Booking ID.
 - Customer.
 - Partner or partners.
 - Service items.
 - Dates.
 - Guests.
 - Pricing.
 - Taxes.
 - Discounts.
 - Commission.
 - Payment.
 - Payout.
 - Refund.
 - Status history.
 - Chat reference.
 - Review eligibility.
 - Dispute reference.
-

21. PAYMENT, ESCROW AND PAYOUTS

21.1 Payment Methods

The architecture must support configurable integrations including:

- bKash.
- Nagad.
- SSLCommerz.
- Cards.
- Bank payment.
- Wallet balance.
- Promotional credit.

21.2 Payment Options

- Full payment.
- Booking deposit.
- Scheduled balance payment.
- Split payment between travelers in a later phase.
- Pay-at-property only when explicitly approved.

21.3 Escrow

Customer payments must be held until the configured payout condition is met.

Possible payout conditions:

- Tour completed.
- Stay checked out.
- Transport completed.
- Dispute window expired.
- Manual Admin approval.

21.4 Payment Split

The system must calculate:

- Service price.
- Taxes.
- Payment-gateway charge.
- Ovigo commission.
- Expert earnings.
- Host earnings.
- Guide earnings.
- Transport earnings.
- Referral commission.
- Advertising deduction.
- Refund reserve.

- Final payout.

21.5 Payout Statuses

- Not Eligible.
 - Pending Completion.
 - Under Dispute.
 - Eligible.
 - Processing.
 - Paid.
 - Failed.
 - On Hold.
 - Reversed.
-

22. COMMISSION ENGINE

The commission engine must support:

- Global commission.
- Role-based commission.
- Category-based commission.
- Property-specific commission.
- Expert-specific commission.
- Referral commission.
- Network commission.
- Guide-supervision commission.
- Promotional commission.
- Fixed transaction fee.
- Percentage transaction fee.
- Minimum commission.
- Maximum commission.
- Time-limited commission agreement.

22.1 Commission Priority

The system must define which rule takes precedence:

1. Booking-specific override.
2. Partner-specific rule.
3. Service-category rule.

4. Role-based rule.
5. Global rule.

22.2 Commission Ledger

Every commission entry must show:

- Booking.
 - Service item.
 - Gross amount.
 - Commission type.
 - Commission percentage.
 - Commission amount.
 - Recipient.
 - Rule used.
 - Date.
 - Payout status.
-

23. ADVERTISING AND PROMOTION

23.1 Eligible Advertisers

- Local Experts.
- Hosts.
- Guides, subject to approval.
- Hotels and resorts.
- Rent-a-Car operators.
- Local service partners.
- Local-product brands.

23.2 Advertising Products

- Top of search.
- Featured property.
- Featured Local Expert.
- Featured tour.
- Sponsored destination result.
- Home-page featured area.
- Location-page banner.

- In-app promotional card.
- Sponsored add-on.
- Seasonal campaign placement.

23.3 Targeting

Campaigns may target:

- Country.
- Division.
- District.
- Upazila.
- Destination.
- Attraction.
- Traveler type.
- Travel dates.
- Tour category.
- Stay category.
- Price segment.

23.4 Campaign Fields

- Campaign name.
- Advertiser.
- Listing or service.
- Placement.
- Target locations.
- Target audience.
- Start date.
- End date.
- Daily budget.
- Total budget.
- Bid amount.
- Billing model.
- Creative.
- Landing page.
- Approval status.

23.5 Billing Models

- Cost per click.
- Cost per thousand impressions.
- Fixed daily placement.

- Fixed campaign placement.
- Featured-listing subscription.

23.6 Ad Reporting

Partners must see:

- Impressions.
- Clicks.
- Click-through rate.
- Spend.
- Remaining budget.
- Booking conversions.
- Revenue attributed.
- Return on ad spend.

Sponsored content must be labelled. Hiding paid placement inside organic ranking would be commercially tempting and editorially grubby.

24. PARTNER APP: COMMON DASHBOARD

All approved partners must receive:

- Role switcher.
- Home summary.
- Notifications.
- Messages.
- Calendar.
- Bookings.
- Earnings.
- Payouts.
- Reviews.
- Advertisements.
- Support.
- Profile settings.
- Verification status.
- Document-expiry alerts.
- Security settings.
- Staff or team access where permitted.

25. LOCAL EXPERT DASHBOARD

25.1 Dashboard Overview

Show:

- Upcoming tours.
- Active custom requests.
- Bids awaiting response.
- Confirmed travelers.
- Current-month sales.
- Pending earnings.
- Available balance.
- Successful-tour count.
- Rating.
- Response rate.
- Cancellation rate.
- Listing-performance alerts.

25.2 Tour Management

- Create tour.
- Edit tour.
- Duplicate tour.
- Submit for approval.
- Manage fixed dates.
- Manage seats.
- Manage travelers.
- Assign Guides.
- Attach stays.
- Attach vehicles.
- Attach activities.
- Add meals.
- Add add-ons.
- Close bookings.
- Cancel departure.
- Export traveler list.

25.3 Custom Tour Bidding

- View eligible requests.
- Filter by location, date and budget.
- Create bid.
- Save bid template.
- Revise bid.
- Chat with traveler.
- Track bid status.
- Convert accepted bid.
- View lost-bid analysis.

25.4 Business Network

- Add business.
- Invite Host.
- Invite transport operators.
- Add local service.
- Track approval.
- View referrals.
- View network bookings.
- View referral commission.

25.5 Guide Management

- Add Guide.
- Invite Guide.
- Review documents.
- Assign Guide.
- View Guide calendar.
- Set earning terms.
- View Guide rating.
- Suspend internal assignment.
- End supervision.

25.6 Earnings

- Direct tour earnings.
- Experience earnings.
- Referral earnings.
- Network earnings.
- Guide-supervision earnings.
- Commission deductions.
- Refund deductions.

- Payout history.
- Withdrawal request.

25.7 Advertising

- Promote Expert profile.
 - Promote tour.
 - Promote experience.
 - Select location.
 - Set budget.
 - View campaign analytics.
-

26. HOST DASHBOARD

26.1 Overview

- Today's arrivals.
- Today's departures.
- Occupied rooms.
- Available rooms.
- Pending booking requests.
- Revenue.
- Pending payout.
- Rating.
- Response rate.
- Listing alerts.

26.2 Property Management

- Add property.
- Edit property.
- Add room or unit.
- Manage amenities.
- Upload images.
- Set policies.
- Apply for badges.
- Add staff.
- Add food options.
- Add pickup.

- Add experiences.
- Set cancellation rules.

26.3 Calendar and Inventory

- Daily inventory.
- Bulk update.
- Close dates.
- Set minimum stay.
- Update prices.
- Set seasonal rate.
- Set weekend rate.
- Block rooms.
- View bookings by room.

26.4 Reservation Management

- Accept request.
- Reject request.
- Confirm arrival.
- Check in.
- Check out.
- Mark no-show.
- Contact guest.
- Report damage.
- Raise dispute.

26.5 Financial Management

- Booking revenue.
- Commission.
- Taxes.
- Refunds.
- Payouts.
- Statements.
- Downloadable invoices.

26.6 Advertising

- Boost property.
- Boost specific room.
- Feature seasonal offer.

- Target selected destinations.
-

27. HOTEL OR RESORT DASHBOARD

In addition to Host features:

- Multiple properties.
 - Multiple staff accounts.
 - Role-based staff permissions.
 - Front-desk mode.
 - Reservation desk.
 - Housekeeping status.
 - Bulk room inventory.
 - Rate plans.
 - Corporate pricing.
 - Group booking.
 - Room assignment.
 - Check-in register.
 - Occupancy report.
 - Average daily rate.
 - Revenue per available room.
 - Tax and service-charge management.
 - Downloadable operational reports.
-

28. GUIDE DASHBOARD

The Guide Dashboard must provide:

- Profile.
- Verification status.
- Service locations.
- Skills and languages.
- Availability calendar.
- Assignment invitations.
- Accepted assignments.
- Traveler information.
- Itinerary.
- Meeting point.

- Emergency contact.
 - Check-in and check-out.
 - Completion submission.
 - Earnings.
 - Payout.
 - Rating.
 - Supervisor information.
 - Incident report.
 - Support.
-

29. RENT-A-CAR DASHBOARD

The dashboard must provide:

- Vehicle list.
 - Driver list.
 - Document expiry.
 - Availability calendar.
 - Pricing rules.
 - Service areas.
 - Booking requests.
 - Tour-linked bookings.
 - Vehicle assignment.
 - Driver assignment.
 - Pickup tracking.
 - Trip start.
 - Trip completion.
 - Fuel and overtime adjustments.
 - Earnings.
 - Payout.
 - Ratings.
 - Disputes.
 - Advertising.
-

30. SUPER ADMIN DASHBOARD

30.1 Executive Overview

The dashboard must display:

- Total bookings.
- Gross booking value.
- Net revenue.
- Commission revenue.
- Stay revenue.
- Tour revenue.
- Transport revenue.
- Ad revenue.
- Active travelers.
- Active Local Experts.
- Active Hosts.
- Active Guides.
- Active properties.
- Upcoming tours.
- Open custom requests.
- Pending verifications.
- Pending payouts.
- Active disputes.
- Cancellation rate.
- Refund rate.
- Location performance.
- Fraud alerts.

30.2 User Management

- Search users.
- View user profile.
- View bookings.
- Suspend user.
- Ban user.
- Reset verification.
- Review reports.
- Merge duplicate accounts.
- View risk score.
- Restrict review access.
- Restrict chat access.

30.3 Partner Management

- View all partners.
- Filter by role.

- Review applications.
- Approve or reject role.
- Request additional documents.
- Suspend individual role.
- Suspend complete account.
- Configure commission.
- View performance.
- View linked businesses.
- View Guide relationships.
- View complaints.
- View financial exposure.

30.4 Verification Management

- Identity verification.
- Business verification.
- Property verification.
- Vehicle verification.
- Guide verification.
- Document-expiry tracking.
- Manual verification notes.
- Verification history.
- Third-party verification integration.
- Reverification scheduling.

30.5 Location Management

- Country management.
- Division management.
- District management.
- Upazila management.
- Destination management.
- Attraction management.
- Map coordinates.
- Merge duplicate locations.
- Rename location.
- Redirect old location.
- Activate or deactivate location.
- Assign service zones.

30.6 Tour Moderation

- Review tour.
- View itinerary.
- Review price.
- Review stay.
- Review transport.
- Review food plan.
- Review safety plan.
- Approve.
- Request edits.
- Reject.
- Suspend.
- Feature.
- Audit change history.

30.7 Stay Moderation

- Review property.
- Verify ownership.
- Review room listing.
- Review images.
- Review policies.
- Approve certification.
- Remove misleading badge.
- Suspend room.
- Suspend property.
- Schedule physical inspection.
- Record inspection findings.

30.8 Guide and Supervision Management

- Approve Guide.
- Link Guide to Expert.
- Remove supervision.
- Review assignments.
- Review incidents.
- Suspend Guide.
- Restrict high-risk activities.
- Approve certifications.

30.9 Custom Tour Management

- View requests.

- View bids.
- Monitor suspicious bidding.
- Close request.
- Extend deadline.
- Remove misleading bid.
- Suspend Expert bidding access.
- Convert request manually.
- Resolve bid-related dispute.

30.10 Booking Management

- Search booking.
- View complete order.
- View service items.
- Change status.
- Reassign partner.
- Cancel service.
- Cancel full booking.
- Resend confirmation.
- Reissue QR code.
- Add internal notes.
- View status log.
- View chat related to dispute.
- Freeze booking.

30.11 Payment Management

- Payment transactions.
- Failed payments.
- Gateway reconciliation.
- Manual payment verification.
- Escrow balance.
- Refund initiation.
- Partial refund.
- Payment reversal.
- Chargeback management.
- Settlement reporting.

30.12 Commission Management

- Set global commission.
- Set role commission.

- Set category commission.
- Set partner commission.
- Set referral commission.
- Set network commission.
- Set effective date.
- Set expiration.
- View calculation preview.
- Audit historical rules.

30.13 Payout Management

- Eligible payouts.
- Held payouts.
- Failed payouts.
- Manual payout approval.
- Batch payout.
- Payout reversal.
- Bank details.
- Mobile-wallet details.
- Tax deduction.
- Downloadable payout statements.

30.14 Dispute Management

- Open disputes.
- Evidence.
- Chat history.
- Booking documents.
- Partner response.
- Traveler response.
- Freeze payout.
- Partial refund.
- Full refund.
- Partner penalty.
- Traveler warning.
- Resolution notes.
- Appeal.
- Final decision.

30.15 Review Management

- Review queue.

- Verified-booking validation.
- Spam detection.
- Profanity detection.
- Partner reply.
- Hide review.
- Restore review.
- Remove policy-violating review.
- Detect review manipulation.
- View rating trends.

30.16 Badge and Certification Management

- Create badge.
- Define eligibility.
- Define required evidence.
- Set validity period.
- Approve badge.
- Revoke badge.
- Schedule inspection.
- Auto-award performance badges.
- Audit badge history.

30.17 Advertisement Management

- Create ad product.
- Set placement price.
- Configure CPC or CPM.
- Approve campaign.
- Reject creative.
- Pause campaign.
- Refund unused budget.
- Manage targeting.
- Manage location fallback.
- Detect click fraud.
- View revenue.
- View performance.

30.18 Fraud and Risk

Risk rules should cover:

- Multiple accounts.
- Reused identity documents.

- Suspicious payout accounts.
- Fake bookings.
- Self-bookings.
- Review manipulation.
- Payment diversion through chat.
- Repeated cancellations.
- High refund rate.
- Sudden price changes.
- Duplicate properties.
- Expired vehicle documents.
- Suspicious commission networks.

30.19 Content and Notification Management

- Push notifications.
- Email templates.
- SMS templates.
- In-app messages.
- Booking reminders.
- Payment reminders.
- Document-expiry alerts.
- Promotional campaigns.
- Emergency destination alerts.

30.20 Reports

Admin reports must include:

- Booking report.
- Revenue report.
- Commission report.
- Payout report.
- Refund report.
- Tax report.
- Partner performance.
- Expert performance.
- Host performance.
- Guide performance.
- Property occupancy.
- Tour performance.
- Custom-bid conversion.
- Advertisement performance.
- Location performance.

- Customer retention.
 - Cancellation analysis.
 - Dispute analysis.
 - Fraud analysis.
-

31. NOTIFICATION REQUIREMENTS

Notifications must be available through:

- In-app notification.
- Push notification.
- Email.
- SMS where required.

Important triggers include:

- Partner application submitted.
 - Partner approved or rejected.
 - Document expiring.
 - Tour approved.
 - New custom request.
 - New bid.
 - Bid accepted.
 - Booking created.
 - Payment successful.
 - Payment failed.
 - Booking confirmed.
 - Upcoming departure.
 - Upcoming check-in.
 - Guide assignment.
 - Cancellation.
 - Refund.
 - Dispute.
 - Payout eligible.
 - Payout completed.
 - New review.
 - New message.
 - Advertisement budget low.
-

32. ROLE-BASED ACCESS CONTROL

The platform must use granular permissions.

Examples:

- A Guide cannot edit a Local Expert's tour.
 - A Hotel receptionist may manage bookings but not payouts.
 - A property manager may update availability but not bank details.
 - A Local Expert may view assigned travelers but not unrelated stay guests.
 - A Host cannot view an Expert's complete commission ledger.
 - Support staff may view bookings but not alter commission rules.
 - Finance Admin may process payouts but not approve identity verification.
 - Super Admin actions must be logged.
-

33. CORE DATA ENTITIES

The system should include, at minimum:

- users
- traveler_profiles
- partner_accounts
- partner_roles
- partner_role_applications
- partner_documents
- local_expert_profiles
- host_profiles
- guide_profiles
- business_profiles
- properties
- property_units
- room_types
- property_amenities
- property_policies
- property_badges
- badge_applications
- vehicles
- drivers
- vehicle_documents
- tours

- tour_departures
- tour_itineraries
- tour_locations
- tour_stays
- tour_transport
- tour_meals
- tour_activities
- tour_addons
- custom_tour_requests
- custom_tour_bids
- bid_revisions
- guide_supervision
- guide_assignments
- business_referrals
- availability_calendars
- inventory
- pricing_rules
- bookings
- booking_items
- booking_guests
- booking_status_history
- payments
- refunds
- escrow_transactions
- commissions
- commission_rules
- referral_commissions
- payouts
- disputes
- reviews
- review_replies
- chat_threads
- chat_messages
- advertisements
- ad_campaigns
- ad_impressions
- ad_clicks
- notifications
- locations
- location_hierarchy
- location_tags
- audit_logs
- fraud_flags

34. API REQUIREMENTS

The platform should use modular APIs for:

- Authentication.
- Identity verification.
- Partner role management.
- Local Expert profiles.
- Host profiles.
- Guide profiles.
- Locations.
- Tours.
- Custom requests.
- Bids.
- Properties.
- Rooms.
- Availability.
- Pricing.
- Transport.
- Activities.
- Bookings.
- Payments.
- Escrow.
- Commissions.
- Payouts.
- Reviews.
- Chat.
- Ads.
- Notifications.
- Analytics.
- Admin controls.

All payment gateways must use secure webhook handling and idempotent transaction processing.

35. NON-FUNCTIONAL REQUIREMENTS

35.1 Performance

- Search results should normally load within two seconds.
- Availability checks should normally complete within three seconds.
- Booking inventory updates must be transaction-safe.
- Chat should support near-real-time delivery.
- The system must support horizontal scaling.

35.2 Reliability

- Booking and payment operations must be idempotent.
- Duplicate payment callbacks must not create duplicate bookings.
- Inventory must not be oversold during simultaneous checkout.
- Financial ledgers must be immutable through normal user actions.

35.3 Security

- Encryption in transit.
- Encryption of sensitive stored data.
- Multi-factor authentication for sensitive partner actions.
- Login and device alerts.
- Rate limiting.
- Secure document storage.
- Restricted Admin access.
- Audit logs.
- Payment-token protection.
- Session revocation.
- Role-based authorization.

35.4 Privacy

- Travelers' identity documents must be visible only where legally and operationally necessary.
- Partners must not export guest data without authorization.
- Chat access by Admin must be logged and purpose-limited.
- Deleted accounts must follow legal retention requirements.
- Marketing consent must be separate from booking communication.

35.5 Accessibility

The customer and partner interfaces should support:

- Keyboard navigation.
 - Screen-reader labels.
 - Sufficient contrast.
 - Clear error messages.
 - Accessible forms.
 - Text alternatives for important images.
-

36. ANALYTICS AND KEY PERFORMANCE INDICATORS

36.1 Marketplace KPIs

- Gross booking value.
- Net revenue.
- Booking conversion rate.
- Average booking value.
- Cancellation rate.
- Refund rate.
- Repeat-booking rate.
- Customer acquisition cost.
- Partner activation rate.

36.2 Local Expert KPIs

- Active Experts.
- Published tours.
- Fixed-tour occupancy.
- Custom-request response rate.
- Bid acceptance rate.
- Successful-tour rate.
- Average rating.
- Expert-generated network revenue.
- Referral revenue.

36.3 Stay KPIs

- Active properties.
- Available room nights.

- Booked room nights.
- Occupancy rate.
- Average daily rate.
- Average stay length.
- Host response time.
- Host cancellation rate.
- Search-to-booking conversion.

36.4 Trust KPIs

- Verified profiles.
- Verified properties.
- Verified reviews.
- Dispute rate.
- Safety incidents.
- Fraud flags.
- Badge revocation rate.

36.5 Advertising KPIs

- Active campaigns.
 - Ad spend.
 - Impressions.
 - Clicks.
 - Click-through rate.
 - Booking conversions.
 - Revenue attributed.
 - Return on ad spend.
-

37. MVP PRIORITY

Phase 1: Core Marketplace

- Partner registration.
- Local Expert, Host, Guide, Hotel and Rent-a-Car roles.
- Role approval.
- Location tagging.
- Local Expert profiles.
- Fixed-date tours.

- Property and room listings.
- Availability calendar.
- Tour and stay booking.
- Basic payment.
- Basic commission.
- Verified reviews.
- Partner dashboards.
- Super Admin controls.

Phase 2: Customization and Network

- Customized tour requests.
- Bidding.
- Guide supervision.
- Business referral network.
- Multi-service bookings.
- Escrow.
- Automated payout split.
- Trust badges.
- Advanced partner analytics.

Phase 3: Growth and Monetization

- Sponsored search.
- Featured listings.
- Location-targeted advertisements.
- CPC and CPM campaigns.
- Advanced pricing.
- Hotel staff accounts.
- External calendar sync.
- Fraud scoring.
- Smart recommendations.

Phase 4: Scale

- Channel-manager integration.
- Property-management-system integration.
- Dynamic packaging.
- Loyalty wallet.
- Multilingual interface.
- Translation-assisted chat.
- International destination support.

- Advanced personalization.
-

38. MVP ACCEPTANCE CRITERIA

The MVP will be considered functionally ready when:

1. A partner can register and select a role.
 2. Admin can verify and approve each role separately.
 3. A Local Expert can create a fixed-date tour with all mandatory service details.
 4. A traveler can search tours using destination tags.
 5. A traveler can view the Expert's verified profile and successful-tour count.
 6. A Host can create a property, room inventory and availability calendar.
 7. A traveler can search and book a stay.
 8. A booking cannot exceed available inventory.
 9. A traveler can pay and receive confirmation.
 10. Ovigo commission is calculated automatically.
 11. Partner earnings appear in the correct dashboard.
 12. Only completed bookings generate review eligibility.
 13. A Local Expert can add a Guide under supervision.
 14. A Local Expert can add a referred business.
 15. Referral attribution is stored.
 16. Admin can manage disputes, refunds and payout holds.
 17. Partners can purchase featured placement.
 18. Sponsored results are visibly labelled.
 19. All important Admin actions are audit logged.
 20. Tour, stay and partner profiles cannot be published without location tags.
-

39. FINAL PRODUCT POSITIONING

Ovigo's Local Expert and Stay Booking product combines:

- Destination expertise.
- Tour creation.
- Customized bidding.
- Stay inventory.
- Local transport.
- Guide management.
- Verified profiles.

- Trust certifications.
- Referral commerce.
- Advertising.
- Booking and payment infrastructure.

The defining advantage is not merely that travelers can reserve a room or buy a package. The advantage is that every destination can develop its own connected network of Experts, Hosts, Guides, properties, vehicles, activities and local services.

Ovigo therefore becomes a structured local tourism economy rather than another list of rooms, discounts and suspiciously enthusiastic stock photographs.
